

HÄFELE

DIALOCK IN HOTELS

THE ELECTRONIC ACCESS
CONTROL SYSTEM FOR
THE HOSPITALITY INDUSTRY.

SIMPLY EASY)))

> Easy to configure.
> Easy to network.
> Easy to operate.
> Easy does it.

EASY. CONVENIENT. RELIABLE.

Dialock access control system. Designed for maximum convenience.
For your guests. And for you.

Dialock makes locking and unlocking amazingly easy. By using a single key card guests can open all doors, cabinets and areas intended for them. And only those. It's a convenient—and secure—experience. The reason? Their credit card-sized key card uses RFID technology for touch-free activation and reliable data communication. And, with optional Bluetooth Low Energy (BLE) technology, guests can even lock and unlock touch free through an app on their mobile device.

Dialock is easy for you as well—from planning to operation. Häfele is a pioneer in RFID technology and an experienced

partner with engineering expertise, a close connection to the marketplace and decades of experience in 360° project services.

Dialock is also an economically sensible and future-proof investment because of its reliability and flexibility to change and grow as your business does. Let us help you discover the possibilities for your property.

Dialock with RFID

- > Present the key card to the door or wall terminal
- > Dialock receives the identification from the card by radio
- > The terminal receives the “access granted” signal from the system

DT 750 door terminal

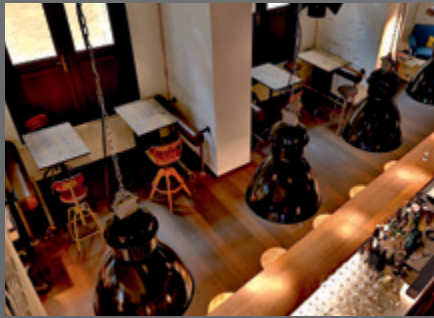

APPLICATIONS AND THEIR POSSIBILITIES.

Dialock access control system: From parking garage to store display cabinet. With flexible access permissions.

You define which doors guests, employees and management are permitted to lock and unlock. You can also specify dates and times of access. Nearly anything you want to lock and unlock can be controlled using Dialock. Control is centralized using Dialock software with you determining the number of contact points and users. Block a card? Do it in seconds. The possibilities are endless.

CONFERENCE ROOM

CHECK-IN

The personal access profiles of guests are associated with a key card during check-in. Reservations can be changed and services ordered at any time without issuing a new key.

PARKING

Weather-proof reader units in external areas allow secure access to parking areas while controlling barriers, roller shutters and security cameras.

INTERCONTINENTAL / CH-DAVOS

MAIN ENTRANCE

Dialock is the secure solution for identification, from the main entrance to the parking garage to the coffee machine. All with a single card.

ELEVATOR

Access to the elevator, specific floors or club floors can be controlled using the key card providing convenience and additional security.

SECURITY IN THE ROOM

Dialock locks and unlocks all kinds of doors while also activating functions in the room such as lighting.

WELLNESS

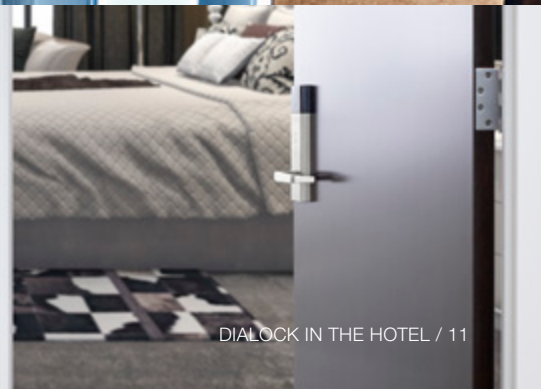

Dialock controls turnstiles at the entrance, locker doors in the changing area and provides a connection for cashless payment at the bar or drink machines.

AN ACCESS CONTROL SYSTEM TAILORED TO YOUR NEEDS

Building size, user groups, interfaces, technology, security:
Dialock adapts to you.

Dialock doesn't just adapt to the size of your property, it can also easily determine the scope of functionality for groups of individuals and areas of the property. Access for employees, guests, building services or billing systems can be tailor-fit for your convenience and to your security requirements with one easy-to-use system.

CENTRAL CONTROL. NETWORKED OPERATION.

Dialock combines systems and components.

MANAGEMENT
SOFTWARE

BUILDING SERVICES

Dialock can be easily connected to all types of popular hotel management software. This allows you to save energy by lowering the temperature of a room if it's not occupied. The open interface design and connection allows Dialock to be used in combination with time and attendance systems, billing systems or building services.

Dialock also allows you to connect different systems networked with terminals. You can create different security levels and reduce your procurement costs by combining online, offline and wireless terminals.

TIME AND
ATTENDANCE

At check-in focus on your guest instead of an operating system. Dialock is intuitive and easy-to-use whether issuing keys, changing rooms, booking wellness services, billing in the restaurant or checking out. Its user-friendly interface promises management and hotel guests a smooth experience.

EASY COMMUNICATION. INTUITIVE OPERATION.

Dialock: Making procedures easier.
For guests, employees and management.

“
I would like a room.
”

FUTURE-PROOF INVESTMENT.

Dialock. Convert, extend or develop at any time.

Start using Dialock at your reception desk and main entrance. Then extend it later to connect with billing systems for the hotel bar or restaurant. Later still extend it to parking areas, the wellness area and elevators—with access for non-hotel personnel.

Dialock makes modular investments possible because the system can be extended at any time. It's cost effective for any current or future project and won't interrupt ongoing operations.

SECURITY REQUIRES KNOWLEDGE AND RELIABILITY.

Dialock access control system:
Professional service during planning and operation.

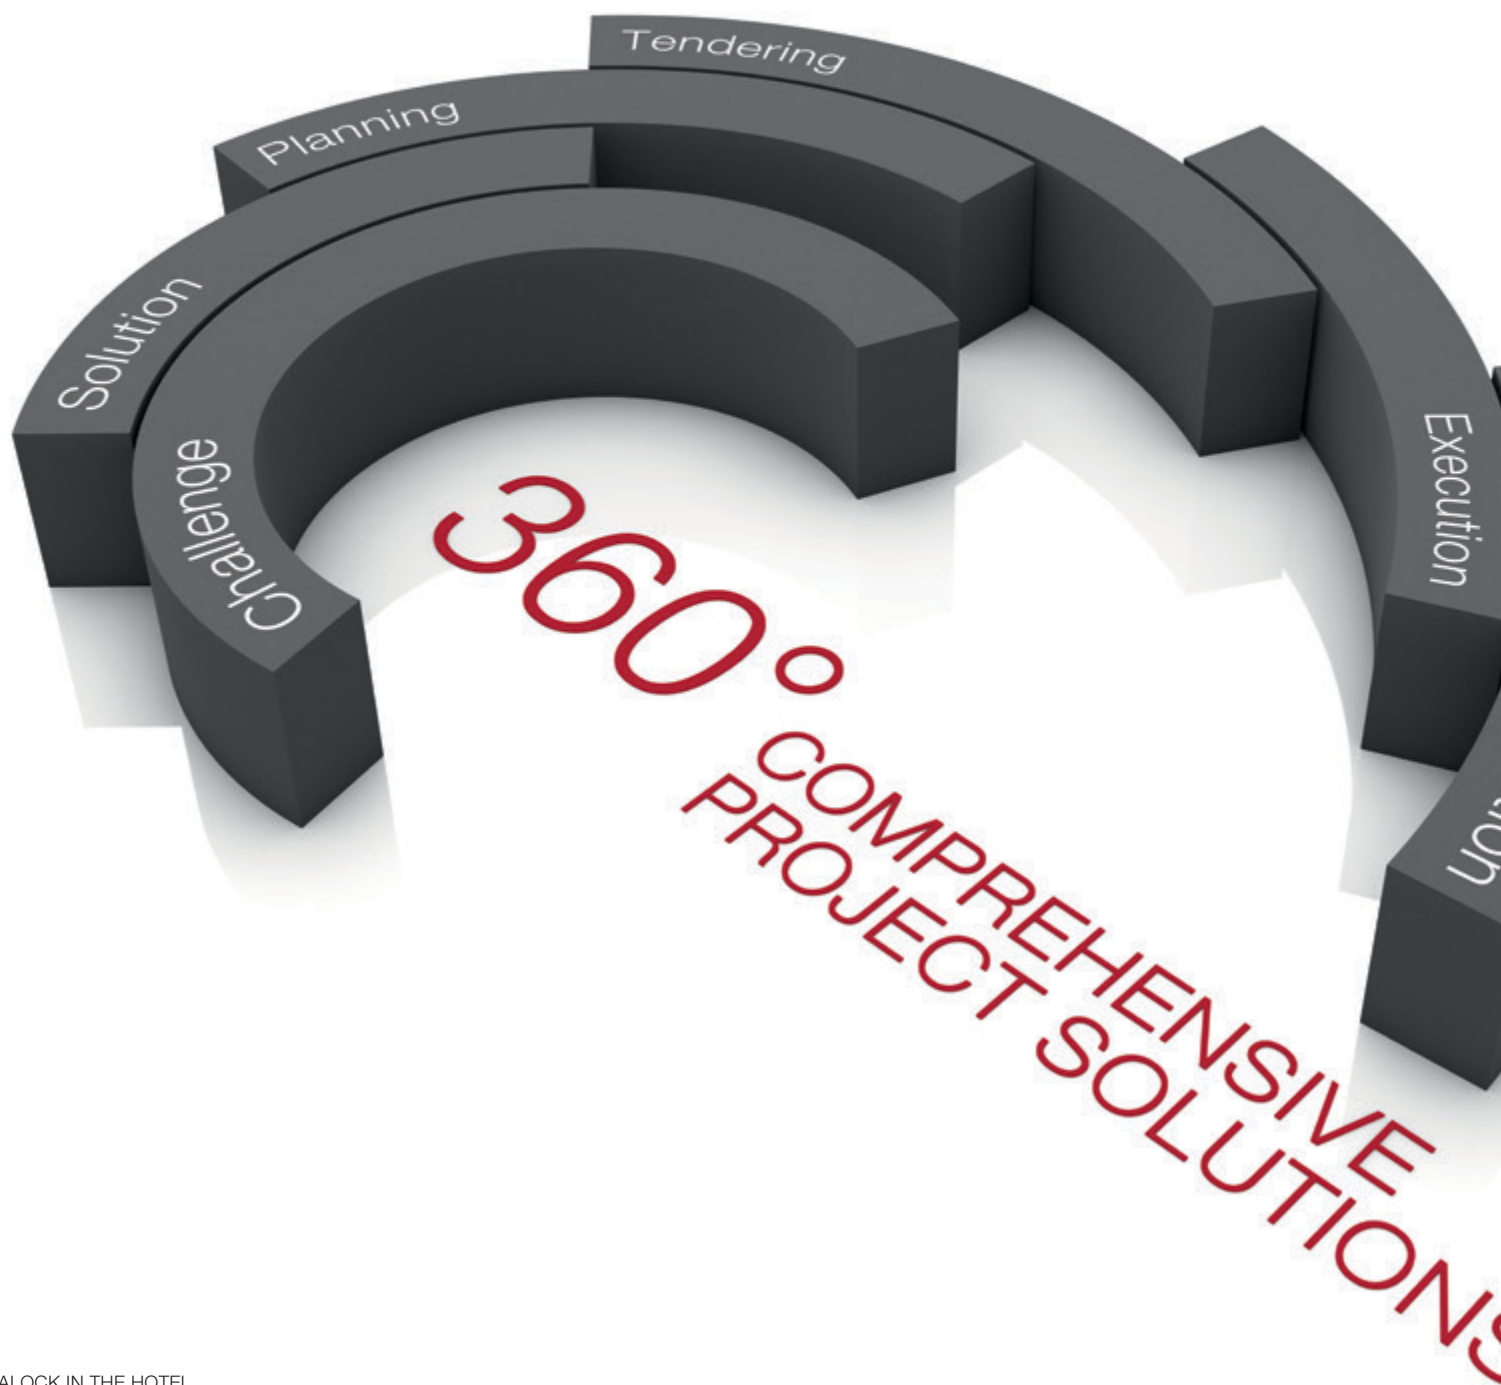

Service

Dialock is easy to use throughout the entire planning and implementation process. Right from the start you receive comprehensive support and implementation of the system is carried out so current operations are affected as little as possible.

Disturbance-free day-to-day operation is what's important. This is why Häfele and its specialists are available to you via remote or in-person maintenance. We're there at all times because Dialock means "easy does it."

HÄFELE—A RELIABLE HOTEL PARTNER

For operators, investors and planners.

PROJECT AND SYSTEM EXPERTISE.

When it comes to the development of projects, Häfele is there to assist you. We're global experts in the field whose mainstay is manufacturer-independent advice. Our hospitality Project Business Group has extensive industrial expertise advising planners, architects and builders in the implementation of their ideas.

Häfele was founded in 1923 by Adolf Häfele and is now one of the leading international providers for furniture fittings and architectural hardware as well as electronic access control systems. Our more than 6,600 employees service about 160,000 customers all over the world. Proximity to the market and customers was, and still is, an innovation driver for Häfele.

FUNCTIONAL FURNITURE SOLUTIONS.

"Making better use of small rooms" is our guiding principle. The intelligent concepts and solutions we use to make all areas of a property, furniture and cabinetry continually impress our customers with their outstanding functionality.

TRUST US WITH YOUR PROJECT.
