ALLOW US TO APOLOGIZE

The title of this catalog is, "Kitchen Solutions" and, while that phrasing encompasses many things, it's also a bit of an understatement. What you'll really find within these pages are an incomparable selection of products which add movement and intelligent function to kitchen spaces coupled with design elements which will make the neighbors swoon with envy.

A close-up photograph of a modern kitchen cabinet. The cabinet is a warm, reddish-brown color with horizontal lines. A pull-out shelf is extended, revealing a dark interior. On the shelf sits a light-colored wooden tray with metal corner brackets. The tray contains a glass decanter and several glasses. To the left of the tray, a bottle of 'SELE' is partially visible. The lighting is warm and focused on the shelf area.

DOORS FANTASTICALLY IN MOTION

Here at Häfele, we take door hardware very, very seriously. The way a cabinet door opens isn't just a mere convenience. It's a demonstration of art, design and engineering. No matter what the cabinet may contain, we know that the way it opens is going to be a functional yet powerful statement. Over and over again, with each open and close.

Whether used in a home, office or some entirely different space, Häfele offers a wide range of new ways to make storage and cabinetry distinctive, practical and endlessly versatile.

For more information on cabinet opening solutions from Häfele, go to www.hafele.com.

THEY'RE CALLED FREE FOR A REASON

When Häfele decided to name its exclusive family of flap fittings Free, it was done so with a tremendous amount of purpose and thought in mind. Opening up – instead of out – can and does allow for some amazing things to occur in kitchens, offices and nearly any other space or configuration. The naturally space-saving design of these fittings means that more can be put into cabinets and that the cabinets themselves – or, more to the point – how they open, does not become an obstacle within the space. These extraordinary hardware solutions allow for a cabinet door to be lifted, tilted, swiveled or folded above the user. Some versions can even open and close with the touch of a finger.

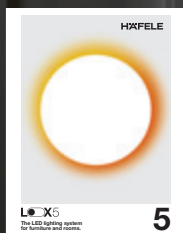

Equipped with feather-light movement, soft open and close, multi-position stop and push-to-open technology, Free flap fittings are an innovative and elegant addition to any kitchen project. Installers also love the products as most can be installed with one hand.

For more information on Free flap fittings from Häfele go to www.hafele.com.

WANT. NEED. WOW.

Want to add design to your projects? Add Loox5 LED lighting. Want to add a unique design aesthetic to your projects? Add Loox5 LED lighting. Want to future-proof all your projects? Add Loox5 LED lighting from Häfele. For designers, the Loox5 LED lighting system can do almost anything you imagine it to do. For installers, the system is intuitive to understand and relatively easy to install.

The Loox5 LED lighting system is smarter, more efficient and brighter than the system it replaces. And the previous generation of Loox lighting was pretty spectacular, so that's saying a lot.

See all of Häfele's bright ideas in lighting in the **Loox LED Lighting System** at www.hafele.com/us.

HAND. SELECTED.

Inspiration comes in many different shapes and styles ... all of which you'll find with Häfele's selection of handles, knobs and pulls. Whether you're looking for Modern, Transitional, Classic or even more distinct styles like Farmhouse and Coastal – exploring Häfele's decorative hardware is simple and easy.

Also, we offer items you can't find anywhere else in our Häfele Exclusive Collection of decorative hardware. Häfele worked with designers from around the globe to develop amazingly stylish contemporary to transitional pieces with matt and brushed gold or black finishes. U.S.-based designers contributing their work to the Häfele Exclusive collection include notable industry names such as Addison Weeks, Matthew Quinn, Ken Harroff and Belwith Keeler. Their efforts help to make up 70+ amazing handles and knobs.

Grab all the latest in decorative hardware in the **Decorative Catalog** at www.hafele.com/us.

RIGHT ANGLES. UNLIMITED OPPORTUNITIES.

The phrase “wasted space” is not a phrase found in the Häfele vocabulary – especially when it comes to corner spaces. We bring motion, functionality and style to these previously dark, forgotten, casserole dish graveyards.

THE CABINETS ARE JUST THE START

At their most basic, cabinets are boxes where you store things. But they can and should be so much more. And that's where these select Häfele kitchen storage options enter the conversation. Pantries. Spice racks. Appliances lifts. Those and more are all here.
