Wall Bed Fitting Set

- > Allows for the construction of foldaway wall beds according to your own plan
- > The dimensions listed are internal cabinet dimensions
- > Required wood thickness for cabinet and bed box construction: 20 mm (25/32")
- > Material: Aluminum

Bed weight	Internal cabinet height	Internal cabinet width
For selecting the gas-loaded spring, the bed weight is needed. Bed box and slatted mattress frame + mattress and bedding	Mattress length + 2 x bed frame thickness + 125 mm (4 15/16")	Mattress width 2 x bed frame thickness + 54 mm (2 1/8")

Finish	Item No.
black	271.95.203

Supplied With

Foldaway fittings with pivot bearing
Positioning bolt for gas pistons
2 Safety stops

Note

It is essential for foldaway beds to be secured against tipping, according to EN 1129, (check the floor for suitability). Two safety stops are supplied with fitting set.

Wall Bed Fitting Set

- > The angular feet with mounting plate are screw mounted to the foot side of the bed frame and to the inside of the front panel
- > A square beam is needed on four sides as a slatted frame support: min. size: 40 x 40 mm (1 5/8" x 1 5/8")
- > Gap on four sides between cabinet and front panel: min. 4 mm (5/32")

→ **Angular Feet**

- > To support the opening bed
- > When opening the bed, the angular feet must be extended, turned by 90° and retracted to the stop
- > Material: Steel, powder-coated

Finish	Item No.
black/aluminum	271.95.361
Supplied With 2 Feet	

→ **Gas Pistons**

- > Pre-stressed with tightening strap
- > Tightening strap needed to install or remove piston from fitting set

Bed weight	Pushing force	Item No.
80 kg (176 lbs.)	1500 N	271.99.346
90 kg (198 lbs.)	1700 N	271.99.382
100 kg (220 lbs.)	1900 N	271.99.410

Note
Order gas pistons separately depending on bed weight.
2 pcs. are required per bed.

→ **Retaining Straps for bedding**

- > With contact closing

Mattress width max.	Item No.
900 (35 7/16")	271.87.920
1,200 (47 1/4")	271.87.921
1,400 (55 1/8")	271.87.922

Supplied With
3 Right/left straps

Wall Beds

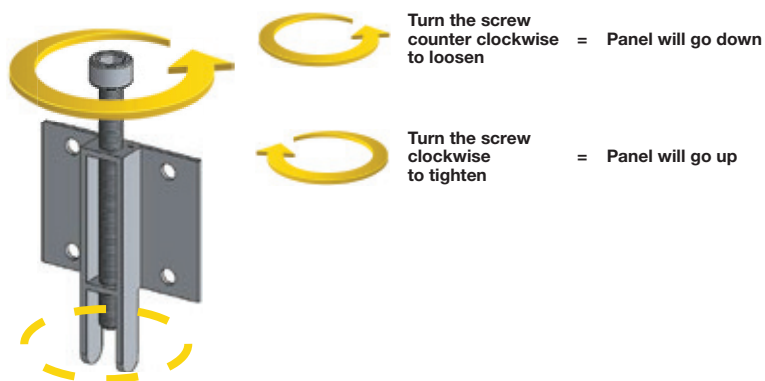

- > For vertical folding beds
- > Space saving in lofts, guest beds, home offices, etc.
- > Mattress thickness: max. 254 mm (10")
- > Quick and simple assembly
- > Optional comfort slat system and cover caps, see page 4.8

Note

Successful and safe installation of hardware and construction of casework requires a professional skill level. Casework must be constructed of high quality material with a minimum thickness of 19 mm (3/4"). Cabinet must be safely secured against tipping, three safety brackets are supplied.

→ Installation

Brackets attach front panels to support bars for quick and simple installation. Brackets include height adjustment screws that allow for easy adjustment of front panels.

Note

The ends are rounded to allow panels to slide left to right for better adjustment.

Häfele Dynamik Wall Beds

- > For vertical folding beds with queen, full or twin sized mattresses
- > Steel frame constructed of 30 x 60 mm (1 3/16" x 2 11/32") tubing for torsion-free operation
- > Includes integrated folding feet, which automatically extend when the bed is opened and retract when closing
- > Wood slatted mattress supports are mounted in flexible sockets for comfort
- > There are two construction methods: with or without toe kick panel, see mounting instructions
- > General inside cabinet depths:
 - mattress thickness: 254 mm (10") = inside depth: 454 mm (17 7/8")
 - mattress thickness: 305 mm (12") = inside depth: 505 mm (19 7/8")
 - additional mattress thickness: depth = mattress thickness + 200 mm (7 7/8")
 - Cabinet depth: min. 400 mm (15 3/4")
 - Make sure to consider the thickness of bedding
- > Mattress weights: pistons are sold separately depending on mattress weight, see next page
- > Decorative cover caps are sold separately, see next page

Important Note

Successful and safe installation of this bed fitting requires a professional skill level. All casework must be installed perfectly square and plumb for this fitting to operate properly and should be constructed of high-quality material with a minimum panel thickness of 19 mm (3/4"). The installer is responsible for properly securing the wall bed cabinet to the wall. Set includes 2 heavy duty L-brackets for mounting to wall studs. It is also highly recommended that additional mounting hardware is used through the back panel and/or into any adjacent cabinetry to ensure cabinet is firmly mounted.

Mattress Weight and Pistons

It is critical to know the weight of the mattress before installation. Pistons are sold separately in pairs depending on the weight of the mattress. Häfele offers piston sets for mattresses with a weight range of 35–85 lbs., see next page. Do not use pistons from any source other than Häfele.

Häfele Dynamik Wall Bed Kits

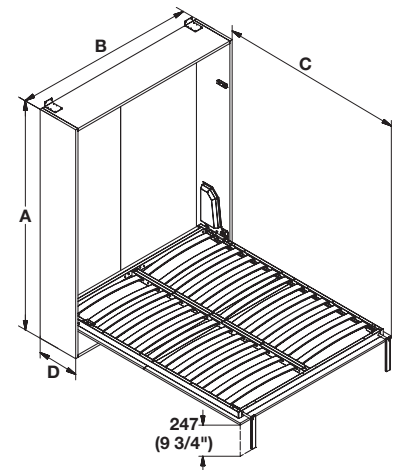

> Material: Steel; Finish: anthracite
Slats: Laminated Beech, natural lacquered

Size	Item No.
twin	271.00.010
full	271.00.011

→ Installation

1) Prepare the Surface

- > Ensure the surface is clean, dry, and smooth. Be sure to remove dust, grease, or debris.

2) Measure & Cut

- > Cut Stratto RLV™ to the desired size using a sharp utility knife.

3) Remove the Backer Film

- > Carefully remove the release liner to expose the PSA (pressure sensitive adhesive).

4) Position & Apply

- > Align the RLV™ on the surface starting from one edge. Apply pressure evenly with a j-roller to activate the bond.

5) Finish Edges, optional

- > Trim excess for clean edges. Edge banding can be added for a finished look.

TAG Hardware Components

4

Home and Closet Organization

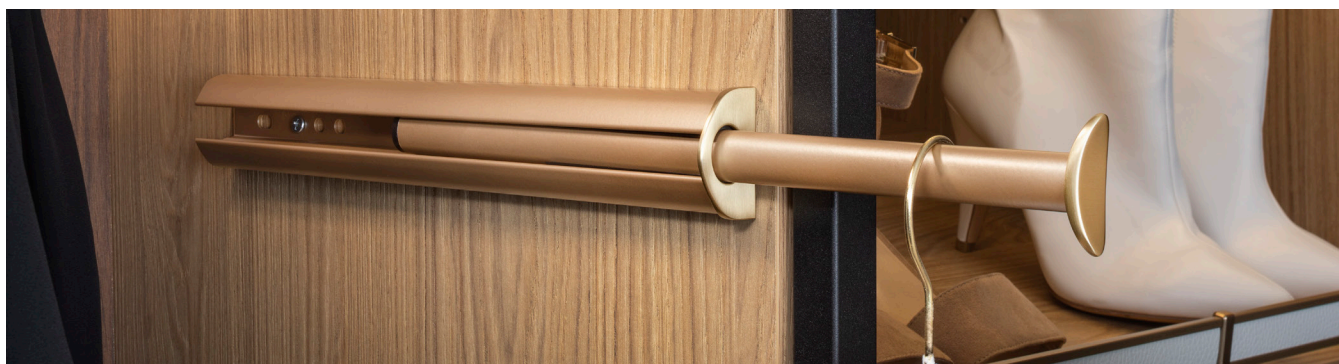

Häfele's entire line of TAG Hardware components perfectly complement one another in any project. No one else offers the closet industry this wide range of products designed to match one another in form, function and fashion. Your customers expect the finish of the shoe fence they select will perfectly match the finish of the scarf rack, tie rack or the valet pin. The TAG Hardware Symphony Wall Mount Organizer elevates storage to the level of functional art while the TAG Hardware Illuminated Shelf — powered by Häfele lighting — adds visual appeal and brilliance to any space. TAG Hardware has even extended perfect matching to their knobs and pulls completing a look in closet design as flawlessly coordinated as a favorite outfit.

TAG New Color Palette

Häfele presents an entirely new TAG color palette for the closet industry. Rich, refined tones combine the elegance of classic metal accents with warm, subtle textures, and consistent premium architectural coatings.

True luxury lies in the details—the quiet confidence of finishes that elevate a space without overpowering it. A refreshed hardware palette was curated with that principle in mind. Drawing inspiration from nature's most timeless elements—earth's subtle tones and the brilliance of metallic accents create a collection that feels both enduring and sophisticated.

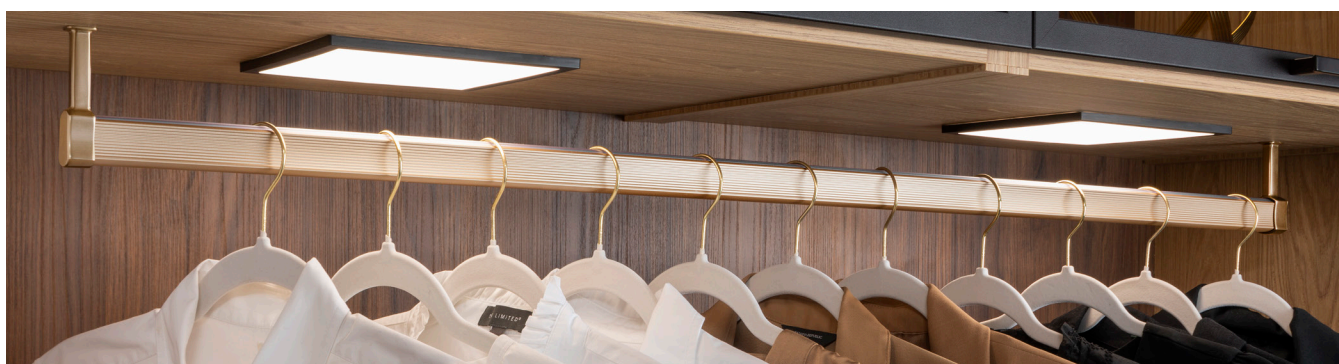

The new colors complement interior color trends with a shift towards warmer, more muted tones and natural hues.

Each finish is designed to harmonize effortlessly with any material, color, or style, allowing you to craft interiors that are both distinctive and timeless. This is more than hardware—it's a refined canvas for your artistry, a palette that enhances the beauty of your designs and speaks to the elegance of true craftsmanship.

TAG Contour Drawer Organizers

Contour was designed to provide edge-to-edge functionality in any drawer and in any size. Contour's unique Trim-to-Fit installation ensures the whole drawer is utilized both functionally and aesthetically.

The TAG Contour organization program from Häfele reshapes closet organization into a truly custom-designed system.

Contour is a premium drawer organization system designed for storing and showcasing jewelry, ties, belts, socks, shirts and more. The smooth, soft faux leather is easy to keep clean and is excellent for holding delicate pieces. Contour is made up of modular components that can be tailored to a client's personal inventory needs. The system of movable trays, dividers and compartments allows for easy adjustments, additions, and reconfigurations as needs or personal accessories change. With Contour, drawer organization is no longer a compromise between functionality and style, offering unmatched versatility, quality, and ease of use. Choose Contour and transform any drawer into a beautifully organized space that reflects efficiency and sophistication.

CONFIGURABLE

Contour's system is ingeniously designed to be fully adjustable, ensuring a perfect fit for any drawer, regardless of size or content changes. This adaptability allows for an organization system that grows and changes with your needs.

COORDINATED

With three colors of faux leather to choose from, Contour coordinates seamlessly with the entire TAG product line as well as any other tone and finish, offering a refined look that elevates the overall aesthetic of your space.

VERSATILE

The Contour system is based on two distinct components; trays for personal items like jewelry and watches, and dividers for organizing clothing items such as pants, shirts, and lingerie. This dual approach ensures everything has its place.

INTEGRATED

The Contour system is the perfect drawer organization system for closet professionals: simple to design and configure, easy to order and install. Contour can be ordered by the job since there are no lead times and no minimum quantities. Alternatively, Contour can be kept in your inventory as a regular stocking item for all your standard drawer installations.

→ Häfele Lighting Connect Mesh 2-Way Distributor, for Tunable White 2-Wire

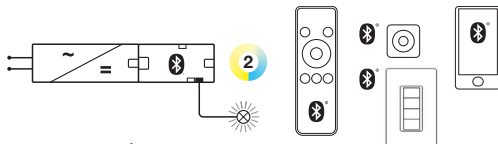

Use toggle switch to select wireless, Bluetooth mode or manual mode.

Switchable between wireless Bluetooth® and manual control modes

Wireless Bluetooth mode

- > Control color temperature and light intensity wirelessly
- > Connect with any Häfele Connect Mesh wireless switch or remote with EasyPairing
- > Use Häfele Connect Mesh app 2.0 for full functionality or for customizing network settings

Manual Control mode

- > Control color temperature manually by pushing button on distributor; 4 selection options: 2700 K, 3000 K, 4000 K and 5000 K
- > Connect a wired switch to the switch port to control on/off and dimming
- > For wireless control of on/off/dimming, attach Connect Mesh receiver (850.00.860) to the switch port. Order separately.

- > Color temperature and dimming can be controlled wirelessly or manually
- > Switch port for wired switches/sensors can be used in either wireless or manual modes
- > 2 output ports; both output ports are controlled together
- > EasyPairing enabled; allows direct pairing with Häfele Connect Mesh wireless switches and remotes
- > Use Häfele Connect Mesh app 2.0 for full connect mesh functionality or for customizing network settings
- > Number of connections: 1 x input port with box-to-box plug
1 x output port with box-to-box socket
1 x input switch port
2 x output ports; operates as 1 control channel
- > Voltage: 24 V
- > Wattage capacity: 90 W

TAG ENGAGE

Bottom should be cut to the following dimensions when used as a folding station.

Shelf width	Length	Depth
457 (18")	376 (14 13/16")	306 (12 1/16")
610 (24")	529 (20 13/16")	306 (12 1/16")
762 (30")	681 (26 13/16")	306 (12 1/16")

- > System is easily reconfigured to meet storage needs
- > Jewelry trays and dividers customize the pull-out shelf
- > Fabric lined bottom is standard

When used as a jewelry organizer, see next page

- > The perfect jewelry storage solution that tucks under a fixed shelf using minimal space
- > A completely customizable grid specifically sized for jewelry, ties, glasses, and more
- > Any combination of grid dividers can be removed, changing the spacing so that it is perfectly sized for sunglasses, belts, larger jewelry, mobile phones, etc.

When used as a divided shelf, see next page

- > Created specifically for jeans, shoes, purses, hats, and shirts
- > Customizable by using 76 mm (3") tall shelf dividers, with as few or as many as desired
- > Color coordinated dividers can be set at any position

When used as a folding station:

- > A clutter free space to fold clothing before storing
- > Tucks neatly under a fixed shelf
- > Simply remove the bottom, add a 19 mm (3/4") thick piece of material and then reinstall the bottom to create a flush mounted folding station

→ Pull-Out Shelves

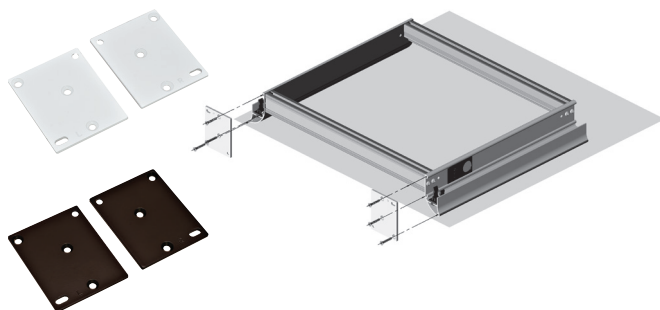

- > H x D: 71 x 353 mm (2 25/32" x 13 7/8")
- > Material: Frame: Aluminum; Bottom: Fabric

TAG Curate Drawer System

Introducing Curate – a reimagined drawer system that offers versatility in design and function. The collection consists of eight pull-out organizers for every closet need.

Curate accommodates both inset and overlay drawer fronts with patented mounting brackets for seamless integration into any design. The incorporated wood drawer front brackets allow for partial or full-size drawer fronts. Adding a bracket attachment will accommodate tall drawer fronts for the shoe or laundry organizers.

→ Drawer Front Options

Curate can be installed with signature metal front plates, accent panels, or custom wood drawer faces, giving designers flexibility while maintaining clean alignment and a refined look.

Metal Front Plates

Clean, architectural and distinctly TAG

Accent Panel

Add warmth and material contrast while keeping the system sleek

Full Wood Front

Integrate Curate seamlessly with surrounding cabinetry and millwork

Wood accent slat (inset and overlay)

Wood accent slat is customer supplied

Full wood face (inset and overlay)

Wood face is customer supplied

Metal end caps (inset)

Metal end caps are sold separately. See page 4.109D.

Note

Any drawer without a wood front requires metal end caps.

Flap Stay Laundry Hamper Kits

> Material: Steel

Finish	Item No.
nickel-plated	547.42.993
black	547.42.994

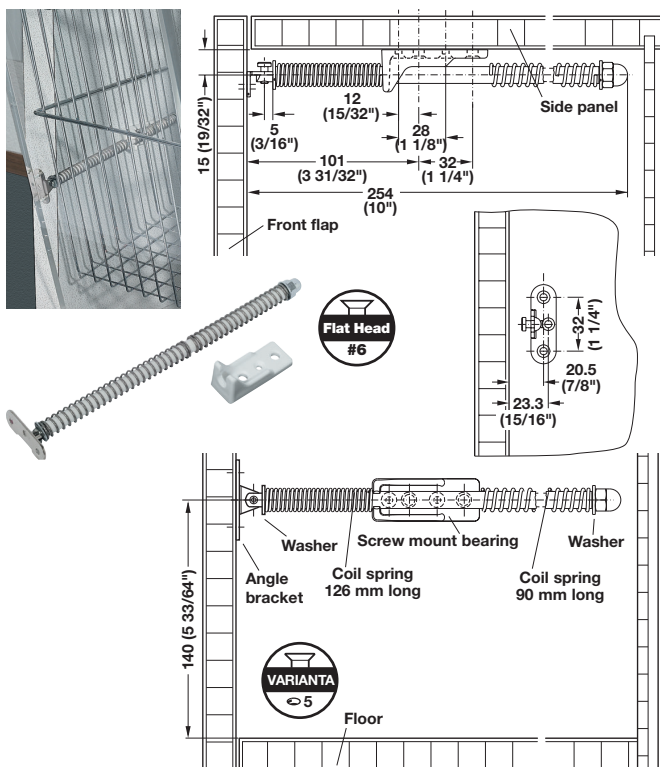

Supplied With

Smove shock absorber	4 Varianta screws
Smove adapter bracket	6 Countersunk wood screws
2 Duo flap stays	2 Pan head screws
2 Cabinet brackets, 37 mm	Hex key, 4 mm
2 Wood door brackets	

Note

2 cup hinges are required. Sold separately.

→ FLAP-EX Flap

- > Particularly suitable for installing in cabinets with a laundry hamper
- > The door is opened approximately 27°
- > When the door is closed, the flap is pushed back into the cabinet and secured by the Mini Latch, required
- > Cabinet H x W: 820 mm x 400 mm (32 5/16" x 15 3/4")
- > Inside cabinet depth: min. 270 mm (10 5/8")
- > Material: Steel; Bearing: Plastic

Finish	Item No.
nickel-plated	365.52.708

Supplied With

Angle bracket, Rod and plastic sleeve, 2 Washers, 2 Coil springs, Bearing

Note

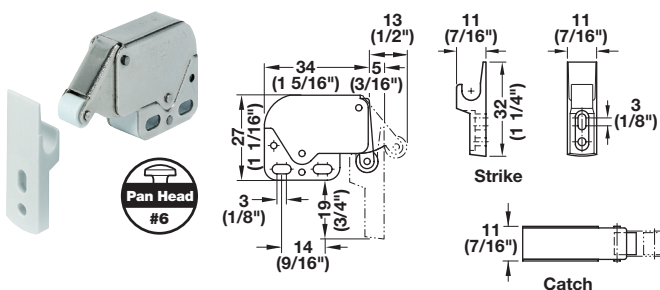

Completely assembled. For installation of the front flap, 2 cup hinges and a Mini Latch are required. The hinge with coil springs supports a particle board front W x H: max. 590 x 400 mm (23 1/4" x 15 3/4"); thickness: max. 19 mm (3/4") and weight when full: max. 5 kg (11 lbs.)

Mounting Instructions

Screw the angle bracket to front panel and screw mount bearing to cabinet side panel; see mounting drawing on the left. Push round rod into the screw-on bearing between the two coil springs.

The door is opened by pushing against the door panel. The pressure triggers the release spring in the fitting and the door opens automatically. To close the door, slightly press against the door panel.

→ Mini Latch

- > Required for above FLAP-EX
- > Screw mounted
- > With strike
- > Material: Catch: Steel; Strike: Plastic; Color: white

Finish	Item No.

Wine Storage

→ Parallel Rods

- > Stores and displays wine bottles and cans so the label can be viewed from the front
- > Rods span between two vertical substrates
- > Internal splines allow rods to be cut and fastened at any length
- > Installs with 1/4-20 or M6 screws
- > Allows for flexible design options; accommodates multiple cabinet depths and bottle types
- > Material: Anodized Aluminum

Finish	Length	Storage*	Item No.
black	432 (17")	1 bottle	521.99.331
black	686 (27")	2 bottles	521.99.332

silver	432 (17")	1 bottle	521.99.931
silver	686 (27")	2 bottles	521.99.932
silver	991 (39")	3 bottles	521.99.933
matte gold	432 (17")	1 bottle	521.99.831
matte gold	686 (27")	2 bottles	521.99.832
matte gold	991 (39")	3 bottles	521.99.833

Supplied With
18 pcs.

Note

Screws are not supplied.

*Storage shelf is based on the length of the rod. Two rods are required for support.

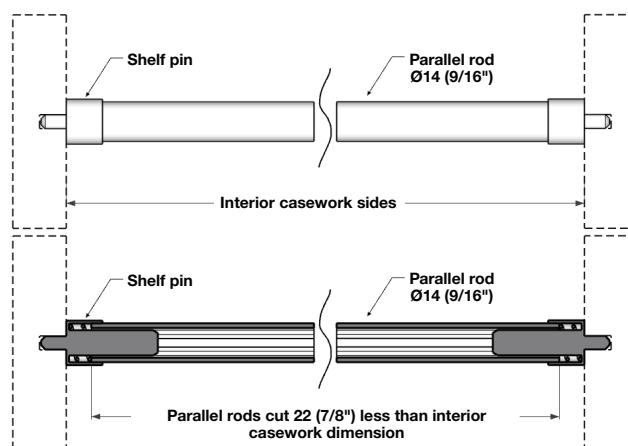

→ Parallel Shelf Pins

- > For use with parallel rods
- > Spring-loaded to allow the quick and easy installation of the parallel rods into standard 5 mm shelf pin holes
- > Cut the parallel rod 22 mm (7/8") shorter than the interior dimensions of the casework sidewall
- > Two parallel shelf pins are required for each parallel rod
- > Weight capacity/rod: 4 kg (9 lbs.)
- > Material: ABS Plastic

Color	Item No.
black	521.99.380
gray	521.99.580

→ Parallel Shelf Pins Installation

Each parallel shelf pin (PSP) has a spring that slips over the spline. Insert the spline into the parallel rod on each end. The shelf pin compresses into the parallel rod allowing the rod to fit snugly between the interior casework sidewalls.

To install a parallel rod into interior casework, fit the spring onto the spline of the PSP and insert it into the ends of the parallel rods. Insert one end of the rod into a 5 mm shelf hole, then push the rod against the side wall to compress the spring. At the same time, compress the other PSP by hand while you align the opposite shelf pin hole, releasing the pressure as the hardware pin springs expand against the casework sidewalls. The parallel rod is now securely held into place.

Wine Storage

- > The parallel rods attach to the brackets to create a ventilated shelf
- > Brackets can be used in a fixed application or with slides for a pull-out shelf
- > H x W: 25 x 12 mm (31/32" x 15/32")
- > Material: Wood/Maple

Note

For use with parallel rods on previous page.

Item No.	290.24.920
-----------------	------------

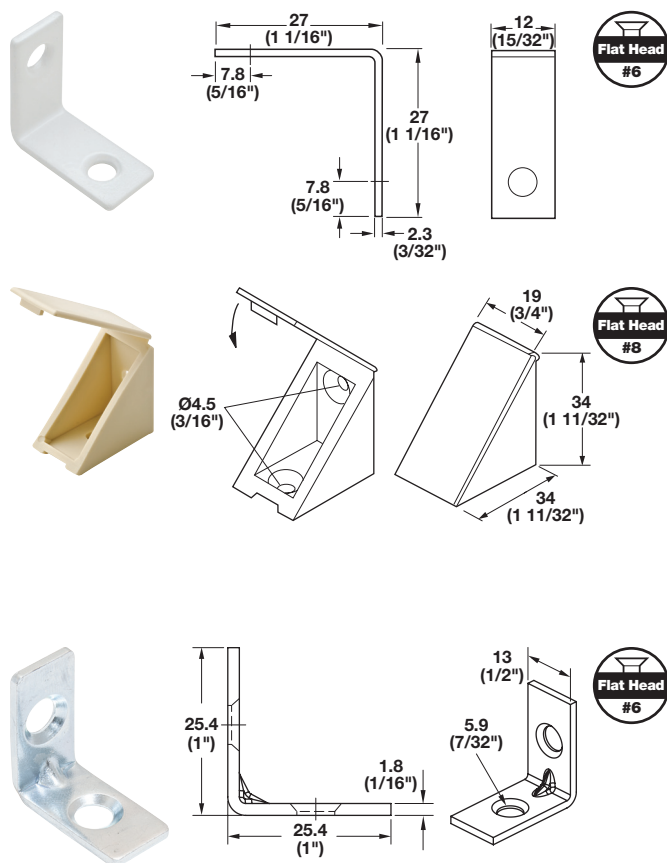

Lower support is surface mounted and does not require machining. A third lower support is recommended to be mounted in the center of cabinets that are wider than 900 mm (35 7/16").

4

The diagrams illustrate the required clearances for the cabinet back and side. The top diagram shows the cabinet back view, with labels for 'Wall', 'Cabinet Back', and 'Cabinet Base'. It specifies a minimum clearance of 3 (1/8") from the wall and a maximum clearance of 14.5 (9/16") from the wall. A dimension of 5.5 (3/16") is shown for the distance between the cabinet back and the wall, with a double-headed arrow indicating the range. The bottom diagram shows the cabinet side view, with labels for 'Cabinet Side', 'Cabinet Back', and 'Cabinet Base'. It specifies a minimum clearance of 3 (1/8") from the wall and a maximum clearance of 14.5 (9/16") from the wall.
